

November 22 (Wednesday)

Opening Ceremony

9:00-9:30

Room 4 (Hall B5)

Award Lecture

9:30-10:00

Room 4 (Hall B5)

ACS Lecture

AL1 Modern Aortic Surgery from Foundations to the Future

Speaker: Stephen Cheng (The University of Hong Kong)

Award Lecture

10:00-10:30

Room 4 (Hall B5)

RACS Lecture

AL2 The Surgeon and Society

Speaker: Philip Truskett (RACS Immediate Past President)

Award Lecture

10:30-11:00

Room 4 (Hall B5)

GB Ong Lecture

AL3 Liver Surgery Innovation

Speaker: Tadatashi Takayama (Department of Digestive Surgery, Nihon University School of Medicine)

Surgical Techniques 1

11:00-12:00

Room 4 (Hall B5)

Surgical Techniques: HBP 1

Chairs: Albert CY Chan (Department of Surgery, Queen Mary Hospital, The University of Hong Kong)
Yoshihiro Sakamoto (Hepato-Biliary-Pancreatic Surgery Division, The Tokyo University Hospital)

ST1-1 The pitfalls of left trisectionectomy or central bisectionectomy for biliary cancer: anatomical classification based on the ventral branches of segment VI portal vein relative to the right hepatic vein

Speaker: Yusuke Yamamoto (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center)

ST1-2 Partial liver resection reduced local recurrence compared with radiofrequency ablation for hepatocellular carcinoma with less than 3 tumors smaller than 3 cm in a propensity score model *extraction of poor prognostic patient group in each treatment*

Speaker: Yukiyasu Okamura (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center Hospital)

ST1-3 Impact of anatomical vs non-anatomical resection for colorectal liver metastases

Speaker: Wong Hoi She (Department of Surgery, The University of Hong Kong)

ST1-4 Liver surgery for octogenarians with hepatocellular carcinoma

Speaker: Toshiya Ochiai (Department of Surgery, North Medical Center, Kyoto Prefectural University of Medicine)

ST1-5 Predictive factors for postoperative complications after surgical resection for perihilar cholangiocarcinoma

Speaker: Sho Yasuta (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East)

ST1-6 Role of hepatic trisectionectomy in advanced hepatocellular carcinoma

Speaker: Julian Tsang (Department of Surgery, Queen Mary Hospital, The University of Hong Kong)

Luncheon Seminar1

12:10-13:00

Room 4 (Hall B5)

Luncheon Seminar

Chair: Shigeki Arii (Hamamatsu Rosai Hospital)

LS1 Development of Japanese Clinical Practice Guidelines for Hepatocellular Carcioma

Speaker: Norihiro Kokudo (National Center for Global Health and Medicine)

Sponsored by Eisai Co., Ltd.

Joint Session1

13:10-14:30

Room 4 (Hall B5)

Breast and Endocrine

Chairs: Sadako Akashi-Tanaka (Showa University, School of medicine, Breast Surgical Oncology)
Mitsue Saito (Juntendo University Hospital)

JS1-1 Dense breast and supplemental screening modality for Japanese women

Speaker: Sadako Akashi-Tanaka (Department of Breast Surgical Oncology, Showa University, School of Medicine)

JS1-2 Breast surgical oncology in the past, now and future

Speaker: Mitsue Saito (Juntendo University Hospital)

JS1-3 Regional epidemiological study on young-onset breast cancers in Southern China

Speaker: Michael Co (Department of Surgery, The University of Hong Kong)

JS1-4 Copy number variants in cell free DNA as prognostic factors for patients with luminal B-like breast cancer

Speaker: Kanako Kurata (Department of Surgery and Oncology, Graduate School of Medical Sciences, Kyushu University)

JS1-5 BRCAness is associated with a poor prognosis in patients with triple negative and/or early onset breast cancer

Speaker: Hitomi Mori (Department of Surgery and Oncology, Graduate School of Medical Sciences, Kyushu University)

JS1-6 Factors contributing to improved survival among elderly breast cancer patients in Hong Kong

Speaker: Dacita TK Suen (Department of Surgery, The University of Hong Kong)

Evidence of Surgery1

14:30-15:30

Room 4 (Hall B5)

Evidence: HBP surgery 1

Chairs: Yoshiyuki Nakajima (Imperial Gift Foundation Inc. Saiseikai Chuwa Hospital)
Katsuhiko Yanaga (The Jikei University School of Medicine)

ES1-1 Impact of pancrelipase with branched-chain amino acids supplementation for Pancreaticoduodenectomy

Speaker: Shintaro Yamazaki (Department of Digestive Surgery, Nihon University School of Medicine)

ES1-2 Management of recurrent HCC after liver transplant

Speaker: Kenneth Siu Ho Chok (Department of Surgery, The University of Hong Kong)

ES1-3 Evaluations of PD-L1 expression and tumor infiltrating T cells in hepatocellular carcinoma

Speaker: Naoto Koike (Department of Surgery, Seirei Sakura Citizen Hospital)

ES1-4 Major postoperative complications compromise oncological outcomes of patients with intrahepatic cholangiocarcinoma after curative resection

Speaker: Ka Wing Ma (Department of Surgery, The University of Hong Kong)

ES1-5 Impact of sarcopenia on complications after liver resection for hepatocellular carcinoma in young-old and old-old patients

Speaker: Jun Muto (Department of Surgery, Steel Memorial Yawata Hospital)

Surgical Grand Round1

15:30-16:50

Room 4 (Hall B5)

Surgical Grand Round: HBP

Chairs: Masafumi Nakamura (Department of Surgery and Oncology Graduate School of Medical Sciences Kyushu University)

Tsann-Long Hwang (Department of Surgery, Chang Gung Memorial Hospital)

SGR1-1 Secure pancreaticojejunostomy after pancreaticoduodenectomy

Speaker: Tsann-Long Hwang (Department of General Surgery, Linkou Chang Gung Memorial Hospital, Chang Gung University)

SGR1-2 Critical anatomy and technique in laparoscopic pancreatectomy

Speaker: Masafumi Nakamura (Department of Surgery and Oncology Graduate School of Medical Sciences Kyushu University)

SGR1-3 Partial TIPE ALPPS for perihilar cancer

Speaker: Yoshihiro Sakamoto (Hepato-Biliary-Pancreatic Surgery Division, The Tokyo University Hospital)

SGR1-4 Surgical modulation of future liver remnant for hepatocellular carcinoma - the ALPPS procedure

Speaker: Albert CY Chan (Department of Surgery, Queen Mary Hospital, The University of Hong Kong)

Joint Session2

11:00-12:00

Room 5 (Hall B5)

Trauma

Chairs: London Lucien Ooi (Singapore General Hospital)

Kosaku Kinoshita (Division of Emergency and Critical Care Medicine, Department of Acute Medicine, Nihon University School of Medicine)

JS2-1 Cardiac injury management for general surgeon

Speaker: Narain Chotirosniramit (Department of Surgery, Faculty of Medicine, Chiangmai University)

JS2-2 Geriatrics trauma: limits & opportunities

Speaker: Gilberto KK Leung (Department of Surgery, Li Ka Shing Faculty of Medicine, The University of Hong Kong, Queen Mary Hospital)

JS2-3 Theoretical operative strategies for boerhaave syndrome

Speaker: Taichiro Tsunoyama (Trauma and Resuscitation Center, Teikyo University)

JS2-4 Laparoscopy in acute abdomen

Speaker: Sanjay Chaube (Department of Surgery St. Judes Hospital)

JS2-5 Laparoscopic repair of occult left diaphragm injury following diagnostic laparoscopy for a left thoracoabdominal stab wound

Speaker: Kaori Ito (Teikyo University School of Medicine, Trauma and Resuscitation Center)

JS2-6 The importance of glutamine for stressed patients

Speaker: Tsann-Long Hwang (Department of Surgery, Chang Gung Memorial Hospital, Chang Gung University)

Joint Session3

13:10-14:20

Room 5 (Hall B5)

Cardiovascular

Chairs: Yiu-Che Chan (Division of Vascular Surgery, Department of Surgery, The University of Hong Kong Medical Centre, Queen Mary Hospital)

Mitsumasa Hata (Department of Cardiovascular Surgery, Nihon University School of Medicine)

JS3-1 Economic realities impacting vascular practice in Asia

Speaker: Yiu-Che Chan (Division of Vascular Surgery, Department of Surgery, The University of Hong Kong Medical Centre, Queen Mary Hospital)

JS3-2 Less invasive quick open stenting (LIQS) for elderly patients with distal aortic arch aneurysm

Speaker: Mitsumasa Hata (Department of Cardiovascular Surgery, Nihon University School of Medicine)

JS3-3 Managing mycotic aortic aneurysms: The ultimate challenge for vascular surgeons

Speaker: Hanafiah Harunarashid (Universiti Kebangsaan Malaysia)

JS3-4 Systematic review of percutaneous mechanical thrombectomy in the treatment of acute iliofemoral deep vein thrombosis

Speaker: PC Wong (Division of Vascular & Endovascular Surgery, Department of Surgery, The University of Hong Kong Medical Centre, Queen Mary Hospital)

JS3-5 Endovascular repair of abdominal aortic aneurysms with horsehoe kidneys

Speaker: Michinari Kono (Department of Cardiovascular Surgery, Nihon University School of Medicine)

JS3-6 The role of three-dimensional printing in contemporary vascular and endovascular surgery, a systematic review

Speaker: CH Tam (Division of Vascular and Endovascular Surgery, Department of Surgery, The University of Hong Kong Medical Centre, Queen Mary Hospital)

Joint Session4

14:20-15:05

Room 5 (Hall B5)

Thyroid

Chairs: Iwao Sugitani (Nippon Medical School)
Jimmy Chan (Department of Surgery, Queen Mary Hospital, The University of Hong Kong)

- JS4-1** Early experience in resecting dysplastic lesions and early cancers in the laryngo-pharynx with a hybrid endoscopic submucosal dissection and endoscopic laryngopharyngeal surgery technique
Speaker: Raymond K Tsang (Division of Otolaryngology - Head and Neck Surgery, Department of Surgery, The University of Hong Kong)
- JS4-2** The role of surgery in the treatment of osteoradionecrosis and its complications after radiotherapy for nasopharyngeal carcinoma
Speaker: Ng Chun Wai (Department of Surgery, Queen Mary Hospital)
- JS4-3** Presence of calcification in thyroid cartilage affected the rate of vocal cord visualization in laryngeal ultrasound with anterior approach, but not lateral approach - result from a multi-center study
Speaker: Kai Pun Wong (Department of Surgery, The University of Hong Kong)
- JS4-4** Should we perform concurrent thyroidectomy with other surgical procedure?
Speaker: Kai Pun Wong (Department of Surgery, The University of Hong Kong)
- JS4-5** Surgical experiences of thyroid malignancies with accompanied cardiovascular intervention
Speaker: Fumiaki Kawano (Department of Surgery, Faculty of Medicine University of Miyazaki)
- JS4-6** Primary surgery lowers the local recurrence rate of early stage tongue cancer than radiotherapy: 11 year experience in a tertiary centre
Speaker: Emily YL Lai (Department of Surgery, Queen Elizabeth Hospital)

Evidence of Surgery2

15:05-16:05

Room 5 (Hall B5)

Evidence: Colorectal 1

Chairs: Keiichi Takahashi (Department of Surgery, Tokyo Metropolitan Cancer and Infectious Diseases Center Komagome Hospital)
Yojiro Hashiguchi (Teikyo University Hospital)

- ES2-1** Evidence based consensus on surgery for ulcerative colitis with comparison among Europe, US and Japan
Speaker: Keiji Matsuda (Department of Surgery, Teikyo University)

- ES2-2** Surgical topics in the revision of Japanese Society for Cancer of the Colon and Rectum (JSCCR) guidelines for treatment of colorectal cancer
Speaker: Yojiro Hashiguchi (Department of Surgery, Teikyo University)
- ES2-3** Comparison of intra-abdominal infections occurring upon creation of intracorporeal versus extracorporeal anastomosis during laparoscopic right hemicolectomy
Speaker: Tetsuo Ishizaki (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- ES2-4** Prognostic factor of stage IV colorectal cancer after primary tumor resection: retrospective analysis
Speaker: Shingo Ito (Department of Coloproctological Surgery, Faculty of Medical, Juntendo University)
- ES2-5** The impact of tumor-associated macrophages on chemoresistance via angiogenesis in colorectal cancer
Speaker: Shigetomi Nakao (Department of Surgical Oncology, Osaka City University Graduate School of Medicine)

Surgical Grand Round2

16:05-16:50

Room 5 (Hall B5)

Surgical grand round: Colorectal

Chairs: Yoshihiro Moriya (Miki Hospital)
Michio Itabashi (Tokyo Women's Medical University)

- SGR2-1** Short- and long-term outcomes of robotic-assisted surgery for rectal cancer: Results of a single high-volume center in Japan
Speaker: Tomohiro Yamaguchi (Division of Colon and Rectal Surgery, Shizuoka Cancer Center Hospital)
- SGR2-2** Hand-assisted laparoscopic surgery for ulcerative colitis
Speaker: Michio Itabashi (Gastrointestinal Surgery, Tokyo Women's Medical University)
- SGR2-3** Lateral lymph node recurrence after Stage I rectal cancer
Speaker: Yosuke Fukunaga (Cancer Institute Hospital, Department of Gastroenterological Surgery)

November 23 (Thursday)

Joint Opening Ceremony

7:40-8:00

Room 1 (Hall C)

Surgical Techniques²

8:00-9:30

Room 4 (Hall B5)

Surgical techniques: HBP 2

Chairs: Keiji Sano (Teikyo University School of Medicine)

Alex Erasmo (Department of Surgery, Jose R. Reyes Memorial Medical Center)

ST2-1 Achieving 100% patient survival at 90 days following whipples procedure, a 30 year experience in an hepatopancreaticobiliary service in Queensland

Speaker: Daryl R. Wall (Department of Trauma, Royal Brisbane Women's Hospital)

ST2-2 Key points of perioperative management to achieve no mortality in pancreatoduodenectomy for soft pancreas patients

Speaker: Shoji Kawakatsu (Department of Gastroenterological Surgery, Cancer Institute Hospital, Japanese Foundation for Cancer Research)

ST2-3 Gastrojejunostomy anastomotic ulcer after subtotal stomach preserving pancreaticoduodenectomy

Speaker: Naoki Yagi (Department of Hepato-Biliary-Pancreatic Surgery, National Cancer Center Hospital East)

ST2-4 Predictive factors for poor survival after surgical resection for potentially-resectable pancreatic ductal adenocarcinoma

Speaker: Motokazu Sugimoto (Department of Hepatobiliary-Pancreatic Surgery, National Cancer Center Hospital East)

ST2-5 Technical refinement for rational pancreatoduodenectomy

Speaker: Masanori Sugiyama (Department of Surgery, Kyorin University)

ST2-6 Favorable method of gastrojejunostomy with simplicity and lower incidence of delayed gastric emptying after pancreaticoduodenectomy

Speaker: Kazuhiro Mori (Tokyo Metropolitan Bokutoh Hospital)

ST2-7 Association between the degree of venous vascular invasion and oncologic outcomes in pancreatic head cancer

Speaker: Katsuhisa Ohgi (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center)

ST2-8 Surgical techniques for HCC in Taiwan

Speaker: Cheng- Chung Wu (Department of Surgery, Taichung Veterans General Hospital)

Evidence of Surgery3

9:30-10:50

Room 4 (Hall B5)

Evidence: HBP 2

Chairs: Keng-Wee Chang (Gleneagles Hospital Kuala Lumpur)
Hiroki Yamaue (Second Department of Surgery, Wakayama Medical University School of Medicine)

ES3-1 Evidence of pancreatic surgery -clinical trials for prevention of postoperative complications-

Speaker: Hiroki Yamaue (Second Department of Surgery, Wakayama Medical University School of Medicine)

ES3-2 Long-term outcomes after pancreatectomy in elderly patients with pancreatic ductal adenocarcinoma: a retrospective review

Speaker: Yusuke Watanabe (Department of Surgery, Kitakyushu Municipal Medical Center)

ES3-3 Lavage versus no lavage through percutaneous catheter drains in severe acute pancreatitis: a randomized control trial

Speaker: Vikas Gupta (Department of Surgery, Postgraduate Institute of Medical Education and Research)

ES3-4 Negative impact of visceral adipose tissue area and skeletal muscle index distribution on pancreatic fistula after pancreatectomy

Speaker: Tomoyuki Abe (Department of Surgery, Onomichi General Hospital)

ES3-5 Nab-paclitaxel and gemcitabine decrease cancer-associated fibroblasts through pancreatic stromal depletion

Speaker: Tomoharu Miyashita (Department of Gastroenterological Surgery, Kanazawa University Hospital)

ES3-6 The anatomical research of using the ligamentum teres hepatic as vascular graft to reconstruct the portal vein and superior mesenteric vein

Speaker: Qiangpu Chen (Department of Hepatobiliary Surgery, Binzhou Medical University Hospital)

ES3-7 Child-Pugh parameters and platelet count as an alternative to ICG test for assessing liver function

Speaker: Kin Pan Au (Queen Mary Hospital)

Invited Lecture1

10:50-11:30

Room 4 (Hall B5)

Lecture 1 (Dr. Brice Gayet)

Chair: Tadatoshi Takayama (Nihon University)

IL1 Why, when and how to preserve the spleen for distal pancreatectomy (SPDP)

Speaker: Brice Gayet (Digestive Pathology, IMM)

Invited Lecture2

11:30-12:00

Room 4 (Hall B5)

Lecture 2 (Dr. Han-Kwang Yang)

Chair: Masashi Fujii (Department of Digestive Surgery, Nihon University School of Medicine)

IL2 How we have built up scientific comrades against gastric cancer in Asia

Speaker: Han-Kwang Yang (Department of Surgery, Seoul National University Hospital)

Luncheon Seminar2

12:20-13:10

Room 4 (Hall B5)

Luncheon Seminar

Chair: Mitsuo Shimada (Department of Surgery, Tokushima University)

LS2 Treatment strategy of chemotherapy and surgical treatment for HCC

Speaker: Akinobu Taketomi (Department of Gastroenterological Surgery I,
Hokkaido University Graduate School of Medicine)

Sponsored by Bayer Yakuhin Ltd.

Joint Session5

13:30-15:00

Room 4 (Hall B5)

Transplantation

Chairs: Minoru Tanabe (Department of Hepatobiliary & Pancreatic Surgery,
Tokyo Medical and Dental University)

Daryl Wall (Division of Surgery, Royal Brisbane and Women's Hospital)

JS5-1 Management of urological complications in kidney transplantation

Speaker: Li Man Kay (Mt Elizabeth Novena Hospital)

JS5-2 Comparable long term outcomes of living donor liver transplantation after portal flow modulation

Speaker: Tracy Y Cui (Department of Surgery, Queen Mary Hospital, The University of Hong Kong)

JS5-3 Prospective study of stereotactic body radiation therapy as bridging therapy for hepatocellular carcinoma patients on waiting list for liver transplantation – an interim report

Speaker: Tiffany C L Wong (Department of Surgery, The University of Hong Kong)

JS5-4 Outcomes of donor evaluation in adult-to-adult living donor liver transplantation: a local study

Speaker: Suet Ying Shing (Department of Surgery, Queen Mary Hospital, The University of Hong Kong)

JS5-5 Evaluation of risk factors associated with early hepatic artery thrombosis after living donor liver transplantation and its outcome

Speaker: Shing Ho Arthur Lo (Department of Surgery, Queen Mary Hospital, The University of Hong Kong)

JS5-6 Which is the best treatment for early stage hepatocellular carcinoma? Primary transplantation or upfront hepatic resection with salvage transplantation

Speaker: Kelvin K. Ng (The Department of Surgery, the University of Hong Kong)

JS5-7 Intrahepatic cholangiocarcinoma: An Indication or a contraindication for liver transplantation? A propensity score matched analysis

Speaker: Ka Wing Ma (Department of Surgery Queen Mary Hospital, The University of Hong Kong)

JS5-8 The results of pancreas transplantation for type 1 diabetes mellitus patients in our department

Speaker: Atsushi Doi (Department of Surgery, and Oncology, Graduate School of Medical Sciences, Kyushu University)

Joint Session6

15:00-15:50

Room 4 (Hall B5)

Pediatric

Chairs: Tsugumichi Koshinaga (Department of Pediatric Surgery, Nihon University School of Medicine)
Toshihiro Muraji (Kirishima Medical Center)

JS6-1 Advances and controversies in the management of congenital pulmonary airway malformations

Speaker: Kenneth K.Y. Wong (Department of Surgery, The University of Hong Kong)

JS6-2 Experience of hirschsprung's disease across the decades -- what are the changes?

Speaker: Michelle On NaYu (Department of Surgery, Queen Mary Hospital, The University of Hong Kong)

JS6-3 Isolated severe ischemic small bowel segment to manage an infant with gut vulvulus and congenital short bowel syndrome

Speaker: Guojian Ding (Department of Pediatric Surgery, Binzhou Medical University Hospital)

JS6-4 Prophylactic use of omega-3 fatty acid reduces the incidence of parenteral nutrition associated liver disease in short bowel syndrome

Speaker: CT Lau (Department of Surgery, The University of Hong Kong, Queen Mary Hospital)

Joint Session7

15:50-17:20

Room 4 (Hall B5)

Endoscopic Surgery

Chairs: Junji Okuda (Innovation Unit/Colorectal Cancer, Cancer Center, Osaka Medical College Hospital)
Go Wakabayashi (Ageo Central General Hospital)

JS7-1 Laparoscopic Roux-En-Y gastric bypass in a morbidly obese situs inversus totalis: A case report

Speaker: Vittoria Vanessa Del Mundo Velasquez (St. Luke's Medical Center-Quezon City)

JS7-2 Clamp-crash method using ultrasonic laparoscopic coagulating shears for laparoscopic hepatectomy

Speaker: Shin Nakahira (Department of Surgery, Sakai City Medical Center)

JS7-3 Short-term results of laparoscopic complete mesocolic excision (CME), involving dissections of lymph nodes around the SMA, in cases of right-sided colon cancer

Speaker: Masanobu Enomoto (Department of Gastrointestinal and Pediatric surgery, Tokyo Medical University)

JS7-4 Newly devised endoscopic breast surgery is aimed at safe and better aesthetic treatment for breast cancer

Speaker: Koji Yamashita (Department of Breast Surgery, Sanno Hospital)

JS7-5 The knacks & skills for facing to bleeding during laparoscopic colorectal surgery

Speaker: Kazuki Ueda (Department of Surgery Kindai University)

JS7-6 Laparoscopic resection for T4 colorectal cancer

Speaker: Kazuhiro Sakamoto (Department of Coloproctological Surgery, Juntendo University Faculty of Medicine)

JS7-7 Role of laparoscopic choledochoduodenostomy for biliary alleviation

Speaker: Hirotaka Okamoto (Department of Surgery Tsuru Municipal Hospital)

JS7-8 Management of bleeding for vascular injury during laparoscopic right hemicolectomy for transverse colon cancer

Speaker: Daisuke Yamamoto (Department of Gastroenterological Surgery, Ishikawa Prefectural Central Hospital)

JS7-9 Laparoscopic enucleation for giant esophageal leiomyomas at the lower esophagus is feasible and safe

Speaker: Andrea Jin-Tung Lee (Department of Surgery, Queen Mary Hospital, The University of Hong Kong)

Surgical Techniques3

8:00-9:20

Room 5 (Hall B5)

Surgical Techniques: Colorectal

Chairs: Wai Lun Law (Division of Colorectal Surgery, Anthony and Anne Cheung Professor in Innovative and Minimally Invasive Surgery, Department of Surgery, The University of Hong Kong)

Mitsugu Kochi (Department of Digestive Surgery, Nihon University School of Medicine)

ST3-1 Combined resection of re-recurrent lateral lymph nodes and external iliac vein

Speaker: Koji Komori (Department of Gastroenerological Surgery, Aichi Cancer Hospital)

ST3-2 Surgical techniques for the local recurrences after lateral lymph node dissection in rectal cancers

Speaker: Koji Komori (Department of Gastroenerological Surgery, Aichi Cancer Hospital)

ST3-3 Our device of rectopexy for complete rectal prolapse: modified Ripstein method preventing rectal stenosis and modified Wells method preventing recurrence

Speaker: Tokihito Nishida (Department of Suegery, Kasai City Hospital)

ST3-4 The effects of Gastrographin enema study through transanal tube for preventing symptomatic anastomotic leakage after laparoscopic low anterior resection

Speaker: Madoka Hamada (Division of Gastrointestinal Surgery, Kansai Medical University Hospital)

ST3-5 Minimally invasive perineal resection for complete rectal prolapse in elderly patients

Speaker: Hidefumi Nishimori (Department of Surgery, Sapporo Dohto Hospital Medical Corporation)

ST3-6 Surgical Strategy for Incidental Bleeding during Laparoscopic Rectal Surgery

Speaker: Fumihiko Fujita (Department of Surgery, Kurume University School of Medicine)

ST3-7 Surgical techniques and outcomes for rectal cancer

Speaker: Wai Lun Law (Department of Surgery, The University of Hong Kong)

Evidence of Surgery4

9:20-10:50

Room 5 (Hall B5)

Evidence: Colorectal2

Chairs: Shoichi Fujii (International University of Health and Welfare, Ichikawa Hospital)
Masafumi Inomata (Department of Gastroenterological Surgery, Oita University)

ES4-1 Transitional impact of short and long-term outcomes of a randomized controlled trial to evaluate laparoscopic versus open surgery for stage II/III colorectal cancer from japan clinical oncology group study (JCOG0404)

Speaker: Shoichi Fujii (International University of Health and Welfare, Ichikawa Hospital)

ES4-2 Clinical evidences of laparoscopic surgery for colorectal cancer

Speaker: Masafumi Inomata (Department of Gastroenterological Surgery, Oita University)

ES4-3 Usefulness of POSSUM in elderly patients over 75 years of age undergoing surgery for colorectal cancer

Speaker: Yuki Ueda (Department of Surgery, Hyogo Prefectural Kaibara Hospital)

ES4-4 The optimal method to evaluate tumor-infiltrating lymphocytes in colorectal cancer

Speaker: Shinji Matsutani (Department Surgery Oncology, Osaka City University Graduate School Medicine)

ES4-5 Factors associated with stoma-related obstruction after restorative proctocolectomy with ileal pouch-anal anastomosis

Speaker: Shingo Tsujinaka (Department of Surgery, Saitama Medical Center, Jichi Medical University)

ES4-6 Limitations of conversion surgery for initially unresectable colorectal liver metastasis

Speaker: Shin Kobayashi (Department of Hepatobiliary and Pameratic Surgery, National Cancer Center Hospital East)

ES4-7 Relevance of persistent descending mesocolon to sigmoid volvulus

Speaker: Atsushi Tsuruta (Department of Digestive Surgery, Kawasaki Medical School)

Luncheon Seminar3

12:20-13:10

Room 5 (Hall B5)

Luncheon Seminar

Chair: Takahiro Kinoshita (Gastric Surgery Division, National Cancer Center Hospital East)

LS3 More precise dissection, more secure reconstruction aiming less complication in LG (Laparoscopic Gastrectomy)

Speakers: Kenoki Ohuchida (Graduate School of Medical Sciences, Kyushu University Department of Surgery and Oncology)

Masanori Tokunaga (Gastric Surgery Division, National Cancer Center Hospital East)

Sponsored by Johnson & Johnson K.K.

Surgical Grand Round 3

13:30-14:30

Room 5 (Hall B5)

Surgical Grand Round: Upper GI

Chairs: Daniel Tong (Department of Surgery, The University of Hong Kong)

Jose Antonio M. Salud (Department of Surgery Office, The Medical City)

SGR3-1 Robot-assisted transmediastinal (non-transthoracic) radical esophagectomy for esophageal cancer

Speaker: Yasuyuki Seto (Department of Surgery, The University of Tokyo Graduate School of Medicine)

SGR3-2 Treatment for advanced esophageal cancer in Japan

Speaker: Yuichiro Doki (Department of Gastroenterological Surgery, Osaka University)

SGR3-3 Reconstruction after laparoscopic gastrectomy

Speaker: Kent-Man Chu (Department of Surgery, The University of Hong Kong)

SGR3-4 Therapeutic strategy for ischaemic gastric conduit after esophagectomy

Speaker: Daniel Tong (Department of Surgery, The University of Hong Kong)

Joint Session 8

14:30-15:20

Room 5 (Hall B5)

Upper GI 1

Chairs: Yuichiro Doki (Department of Gastroenterological Surgery, Osaka University)

Toshiro Nishida (National Cancer Center Hospital)

JS8-1 A single-institution review of gastric cancer patients with muscularis propria invasion presenting positive peritoneal lavage cytology

Speaker: Taizo Sakata (Department of Surgery, Okayama Saiseikai General Hospital)

- JS8-2** **DNA methylation of microrna genes in gastric carcinoma and its clinicopathological association**
Speaker: Dong Yi Kim (Department of Surgery, Chonnam National University Medical School)
- JS8-3** **The effects of enteral immunonutrition in upper gastrointestinal surgery: A systematic review and meta-analysis**
Speaker: Chee Siong Wong (University of Edinburgh)
- JS8-4** **Totally laparoscopic versus open gastrectomy for advanced gastric cancer in Hong Kong: a matched case-control study**
Speaker: Brian Yin On Chan (Department of Surgery, Queen Elizabeth Hospital)
- JS8-5** **Analysis of parameters which affect direction of lymphatic drainage in the stomach**
Speaker: Atsuo Shida (Department of Surgery, Jikei University School of Medicine)

Joint Session 9

15:20-16:20

Room 5 (Hall B5)

Upper GI 2

Chairs: Masako Hiramatsu (Department of Surgery, Takatsuki Red Cross Hospital)
Chikara Kunisaki (Department of Surgery, Gastroenterological Center, Yokohama City University)

- JS9-1** **Prognostic factors of cytology-positive resected gastric cancer**
Speaker: Shunji Endo (Department of Gastroenterological Surgery, Higashiosaka City Medical Center)
- JS9-2** **The survival and prognosticators of peritoneal cytology-positive gastric cancer patients who received upfront gastrectomy and subsequent S-1 chemotherapy**
Speaker: Kazuki Kano (Department of Gastrointestinal Surgery, Kanagawa Cancer Center)
- JS9-3** **Laparoscopic repair of giant paraesophageal hernia**
Speaker: Ian Wong (Department of Surgery, The University of Hong Kong)
- JS9-4** **Salvage surgery and conversion surgery for thoracic esophageal cancer**
Speaker: Hiroshi Sato (Department of Gastroenterological Surgery, International Medical Center Saitama Medical University)
- JS9-5** **Esophagogastric junction submucosal tumor – shall we resect it by per-oral endoscopic tumor resection or endoscopic submucosal dissection?**
Speaker: Fion Siu Yin Chan (Department of Surgery, Queen Mary Hospital, The University of Hong Kong)
- JS9-6** **Changes in body weight, skeletal muscle and adipose tissue after surgery: Comparison between proximal gastrectomy and total gastrectomy**
Speaker: Raito Asaoka (Division of Gastric Surgery, Shizuoka Cancer Center)

Joint Session10

16:20-17:20

Room 5 (Hall B5)

Hernia

Chairs: Shintaro Sakurai (St. Luke's International Hospital, Hernia Center)
Kazuhiko Yoshida (Katsushika Medical Center, Jikei University School of Medicine)

JS10-1 Standardization of single port totally extraperitoneal hernioplasty (SPTEP)

Speaker: Yoshiro Imai (Department of Gastroenterological surgery, Takatsuki Red Cross Hospital)

JS10-2 The benefit of robot - assisted laparoscopic inguinal hernia repair

Speaker: Sho Mineta (Department of Surgery, Ageo Central General Hospital)

JS10-3 Result of laparoscopic primary suturing and mesh fixation in incisional hernia

Speaker: Sanjay Chaube (Department of Surgery St. Judes Hospital)

JS10-4 Laparoscopic TEP for groin hernia without general anesthesia

Speaker: Norihito Wada (Department of Surgery, Keio University School of Medicine)

JS10-5 Risk factors for incisional hernia after colorectal surgery

Speaker: Akihiro Tomida (Department of Surgical Oncology Nagoya University Graduate School of Medicine)

JS10-6 Laparoscopic intraperitoneal onlay mesh (IPOM) technique with laparoscopic percutaneous extraperitoneal closure (LPEC) for inguinal hernia in adult

Speaker: Hidefumi Nishimori (Department of Surgery, Sapporo Dohto Hospital Medical Corporation)

November 22 (Wednesday)

Best Poster Presentations 1

16:50-17:10

(Hall B5 Lobby)

Chair: Simon Y. K. Law (Department of Surgery The University of Hong Kong)

Posters

Poster Exhibition (Hall B5 Lobby)

- P-1 Indoleamine 2,3-dioxygenase activity in intra-cystic breast tumors**
Speaker: Kenichi Sakurai (Division of Breast and Endocrine Surgery, Department of Surgery, Nihon University School of Medicine)
- P-2 Menstruation recovery rate after chemo-endocrine therapies for premenopausal patients with breast cancer**
Speaker: Kenichi Sakurai (Division of Breast and Endocrine Surgery, Department of Surgery, Nihon University School of Medicine)
- P-3 The combined effect of paclitaxel and toremifene therapy for estrogen receptor positive and aromatase inhibitor resistant metastatic breast cancer**
Speaker: Kenichi Sakurai (Division of Breast and Endocrine Surgery, Department of Surgery, Nihon University School of Medicine)
- P-4 Efficacy of docetaxel in patients with paclitaxel-resistant metastatic breast cancer**
Speaker: Kenichi Sakurai (Division of Breast and Endocrine Surgery, Department of Surgery, Nihon University School of Medicine)
- P-5 A case of neuro-endocrine ductal carcinoma in situ treated by microdochectomy assisted with endoscopy**
Speaker: Hitomi Kubota (Division of Breast and Endocrine Surgery, Department of Surgery, Nihon University School of Medicine)
- P-6 Reduction rate for mucinous carcinomas of the breast during neo-adjuvant chemotherapy**
Speaker: Hitomi Kubota (Division of Breast and Endocrine Surgery, Department of Surgery, Nihon University School of Medicine)
- P-7 A study of juvenile breast cancer with the onset of twenties**
Speaker: Keita Adachi (Division of Breast and Endocrine Surgery, Department of Surgery, Nihon University School of Medicine)
- P-8 Spinal cord compression syndrome with paralysis caused by bone metastases from breast cancer: report of a case**
Speaker: Keita Adachi (Division of Breast and Endocrine Surgery, Department of Surgery, Nihon University School of Medicine)

- P-9** **An unusual gastrointestinal presentation from metastatic non-palpable invasive lobular breast carcinoma**
Speaker: Elaine Hb Ng (Hospital Raja Permaisuri Bainun)
- P-10** **Primary breast cancer in a male**
Speaker: Katsuhisa Enomoto (Division of Breast and Endocrine Surgery, Department of Surgery, Nihon University School of Medicine)
- P-11** **Potential risk factors for the development of seroma following mastectomy with sentinel node biopsy**
Speaker: Shigeki Minami (Department of Surgery, Nagasaki Harbor Medical Center)
- P-12** **Granulomatous mastitis and hyperprolactinemia: a case report**
Speaker: Vittoria Vanessa Del Mundo Velasquez (Kyushu University Hospital, St. Luke's Medical Center-Quezon City, The Premier Medical Center-Paranaque)
- P-13** **Breast carcinoma treatment patterns in older Japanese women**
Speaker: Patrathol Panitvorapume (Osaka University Medical School)
- P-14** **Breast carcinoma with osteoclast-like giant cells diagnosed by fine-needle aspiration biopsy**
Speaker: Yumi Koyama (Division of Breast and Endocrine Surgery, Department of Surgery, Nihon University School of Medicine)
- P-15** **Laparoscopy versus laparotomy for the management of penetrating abdominal trauma: a systemic review and meta-analysis**
Speaker: Chee Siong Wong (Blackpool Teaching Hospitals NHS Foundation Trust)
- P-16** **CPR-induced massive liver trauma - an untimely complication in a complicated pregnancy**
Speaker: Elaine HB Ng (Hospital Raja Permaisuri Bainun)
- P-17** **Complex abdominal trauma with mesh closure - an experience in a non-trauma centre**
Speaker: Elaine HB Ng (Hospital Raja Permaisuri Bainun)
- P-18** **Correlation between serum albumin and initial glasgow coma scale in patients with head injury**
Speaker: Binit Kumar Jha (Tribhuvan University Teaching Hospital)
- P-19** **Stent-assisted coil embolization for spontaneous isolated dissecting aneurysm of symptomatic superior mesenteric artery (SIDSMA) : report of a case**
Speaker: Tomoaki Saito (Department of Surgery, Toho University Ohashi Medical Center)

- P-20** **Fournier's Gangrene: A 10-year review and validation of mortality predictors in a Hong Kong major regional centre**
Speaker: Brian Yin On Chan (Department of Surgery, New Territories West Cluster, Hospital Authority)
- P-21** **Changes and influential factors of body fluid volume and distribution after abdominal surgery**
Speaker: Qiangpu Chen (Department of Hepatobiliary Surgery, Binzhou Medical University Hospital)
- P-22** **Delayed abdominal wall mesh closure in trauma surgery**
Speaker: Deborah YS Ding (Department of General Surgery, Hospital Raja Permaisuri Bainun Ipoh)
- P-23** **Clinicopathological analysis of thyroid cancers in the young population in Fukushima**
Speaker: Manabu Iwadate (Department of Thyroid and Endocrinology, Fukushima Medical University)
- P-24** **A case of thyrotoxic periodic paralysis caused by autonomously functioning thyroid nodule**
Speaker: Yoshiko Matsumoto (Department of Thyroid and Endocrinology, Fukushima Medical University)
- P-25** **Pancytopenia in a surgical patient, a rare presentation of hyperthyroidism**
Speaker: Prabhat Jha (Tribhuvan University Teaching Hospital)
- P-26** **Laparoscopic resection of adrenal tumor in pregnant woman with Cushing's Syndrome: case report and review of the literature**
Speaker: Luo Bing Feng (Department of Surgery, Hong Kong University-Shenzhen Hospital)
- P-27** **Early versus late thyroidectomy for patients with goitre presented with airway obstruction**
Speaker: Yuk-Kwan Chang (Department of Surgery, The University of Hong Kong)
- P-28** **Total parathyroidectomy under local anesthesia: restrictive lung disease, no longer a 'restriction' to surgery**
Speaker: Deborah YS Ding (Department of General Surgery, Hospital Raja Permaisuri Bainun Ipoh)
- P-29** **Patient outcomes and quality of life in post total parathyroidectomy patients in a newly established endocrine surgery unit in Ipoh**
Speaker: Deborah YS Ding (Department of General Surgery, Hospital Raja Permaisuri Bainun Ipoh)
- P-30** **Clinical experience of ¹⁸F-Positron Emission Tomography-computed tomography in the management of patients with infective aortic pathology**
Speaker: Julian Tsang (Division of Vascular Surgery, Department of Surgery, Queen Mary Hospital, The University of Hong Kong)
- P-31** **Does adjuvant radiotherapy make a difference in extra-uterine leiomyosarcomas with R1 resections?**
Speaker: Chin Jin Seo (National Cancer Centre Singapore)

- P-32** **Mode of presentation and clinical progress in a cohort of patients with acute type B aortic dissection**
Speaker: Felix Che-Lok Chow (Department of Surgery, Queen Mary Hospital, University of Hong Kong)
- P-33** **Surgical arteriovenous fistula creation: experience in a general surgery unit in Hospital Raja Permaisuri Bainun Ipoh, Perak, Malaysia**
Speaker: Deborah YS Ding (Department of General Surgery, Hospital Raja Permaisuri Bainun Ipoh)
- P-34** **Sphincter preserving surgery in low rectal cancer: oncological outcome and risk factors for local recurrence**
Speaker: Vienna Man Wah Ng (Department of Surgery, The University of Hong Kong, Queen Mary Hospital)
- P-35** **Intraoperative identification of colonic tumor sites using a near-infrared ICG-induced endoscopic fluorescence imaging system**
Speaker: Makoto Watanabe (Department of Gastroenterological & General Surgery School of Medicine, Showa University)
- P-36** **A dedicated simulation curriculum results in technical skill improvement while performing laparoscopic sigmoidectomy**
Speaker: Tomokazu Kishiki (Department of Surgery, Kyorin University School of Medicine)
- P-37** **Prognosis in patients with colorectal perforation according to new sepsis definition (SEPSIS-3)**
Speaker: Tomoharu Shimizu (Department of Surgery, Shiga University of Medical Science)
- P-38** **A case of intussusception caused by ascending colon cancer with persistent mesocolon**
Speaker: Mio Uraoka (Kawasaki Medical School, Digestive Surgery)
- P-39** **Clinical significance of extended lateral lymph node dissection for lower rectal cancer**
Speaker: Shinichi Yamauchi (Department of Surgical Gastroenterology, Tokyo Medical and Dental University)
- P-40** **Metastatic collision tumors consisting of sigmoid colon cancer and breast cancer**
Speaker: Akiko Sagara (Department of Surgery and Oncology, Graduate School of Medical Sciences, Kyushu University)
- P-41** **The randomized controlled trail of incisional SSI (running suture VS intermittent suture in dermostitch)**
Speaker: Yoshihiko Tashiro (Department of Shikoku Central Hospital)
- P-42** **Successful treatment by ileorectal anastomosis for recurrent stoma prolapse after Hartmann's procedure: a case report**
Speaker: Noriya Takayama (Department of Surgery, Saitama Medical Center, Jichi Medical University)

- P-43** **Post-operative septic complication is an independent prognostic factor for survival in patients who have undergone cytoreductive surgery (CRS) and hyperthermic intraperitoneal chemotherapy (HIPEC)**
Speaker: Weining Wang (Duke-NUS Medical School)
- P-44** **Tumour biology, pre-operative serum albumin levels and post-operative infective complications are prognostic factors for survival in patients with retroperitoneal sarcoma**
Speaker: Weining Wang (Duke-NUS Medical School)
- P-45** **The prognostic capability of oxidative stress after surgery in colorectal cancer**
Speaker: Kiichi Sugimoto (Department of Coloproctological Surgery, Juntendo University Faculty of Medicine)
- P-46** **Audit of neuroendocrine tumours in a general surgery unit in a state hospital in Malaysia**
Speaker: Elaine HB Ng (Hospital Raja Permaisuri Bainun)
- P-47** **Experience with single-incision laparoscopic cholecystectomy**
Speaker: Nobumi Tagaya (Department of Surgery, Dokkyo Medical University Koshigaya Hospital)
- P-48** **Single incision laparoscopic surgery used to TEM (SILSTEM) for adenoma and early rectal cancer**
Speaker: Shigeoki Hayashi (Department of Digestive Surgery, Nihon University)
- P-49** **A case of Hinchey stage II diverticulitis successfully treated with laparoscopic sigmoidectomy**
Speaker: Naoaki Shimamoto (Mitsuwadai General Hospital)
- P-50** **A new technique of abdominal wall nerve block for laparoscopic abdominal surgery**
Speaker: Jun Nagata (Wakamatsu Hospital)
- P-51** **Assessment of the safety and efficacy of negative pressure combined with semirigid ureteroscope holmium laser in the treatment of upper ureteral stone**
Speaker: Geng Geng Wei (Department of Urinary, The University of Hong kong -Shenzhen Hospital)
- P-52** **Hybrid technique: combined laparoscopic and open surgical repair for a large incisional hernia**
Speaker: Vittoria Vanessa Del Mundo Velasquez (Kyushu University Hospital)
- P-53** **High grade prostate intraepithelial neoplasia with adjacent atypia is associated with a higher risk of prostate cancer detection on subsequent prostate biopsy**
Speaker: Steffi Yuen (Queen Mary Hospital)

- P-54** **Efficacy of flexible ureteroscopy combined with holmium laser lithotripsy for upper urinary calculus**
Speaker: Xiong Lin (Hong Kong University Shen Zhen Hospital Department of Urology)
- P-55** **Retroperitoneal laparoscopic ureterolithotomy for upper ureteral calculus: a report of 68 cases**
Speaker: Xiong Lin (Hong Kong University Shen Zhen Hospital Department of Urology)
- P-56** **Managing pharyngeal pouch with endoscopic submucosal cricopharyngeal myotomy by a flexible oesophagoscope – a case report**
Speaker: Raymond K Tsang (Division of Otolaryngology - Head and Neck Surgery, Department of Surgery, University of Hong Kong)
- P-57** **Our surgical procedure and clinical study of laparoscopic repair for large esophageal hiatal hernia**
Speaker: Satoshi Inose (Department of Surgery, Kashiwa Kousei General Hospital)
- P-58** **Clinicopathological correlation of 18F-FDG PET in characterizing gall bladder wall thickening**
Speaker: Vikas Gupta (Department of Surgery, Postgraduate Institute of Medical Education and Research)
- P-59** **Portal venous metallic stent placement in recurrent periampullary cancers**
Speaker: Shintaro Yamazaki (Department of Digestive Surgery, Nihon University School of Medicine)
- P-60** **Chylothorax after Distal pancreatectomy; report of a case**
Speaker: Tomoaki Saito (Department of Surgery, Toho University Ohashi Medical Center)
- P-61** **Middle segment-preserving pancreatectomy for metachronous intraductal papillary mucinous neoplasm after pancreatoduodenectomy: a case report**
Speaker: Mihoko Yamada (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center)
- P-62** **Successfully resected case of gallbladder malt lymphoma: report of a case**
Speaker: Takashi Horiuchi (Department of Surgery, The Jikei University School of Medicine)
- P-63** **C-reactive protein was an early predictor of postoperative infectious complications after pancreaticoduodenectomy for pancreatic cancer**
Speaker: Yosuke Atsumi (Department of Gastrointestinal Surgery, Kanagawa Cancer Center)
- P-64** **Analysis of risk factors for recurrence after curative resection of well differentiated non-functioning pancreatic neuroendocrine tumors**
Speaker: Yohei Nakashima (Department of Surgery and Oncology, Graduate School of Medical Sciences, Kyushu University)

- P-65** **Efficacy and safety of early cholecystectomy for patients with comorbid acute cholecystitis and cholangitis**
Speaker: Tomoaki Bekki (Department of Surgery, Onomichi General Hospital)
- P-66** **A useful method for recurrent lesions of insulinoma: a case of arterial stimulation and venous sampling prior to operation**
Speaker: Shintaro Yamazaki (Department of Digestive Surgery, Nihon University School of Medicine)
- P-67** **Incidence and risk factors of postoperative delirium in patients after pancreaticoduodenectomy**
Speaker: Yoshito Tomimaru (Department of Surgery, Toyonaka Municipal Hospital)
- P-68** **Long survivors after resection of liver metastasis from pancreatic cancer**
Speaker: Yusuke Mitsuka (Department of Digestive Surgery, Nihon University School of Medicine)
- P-69** **Effect of modified xiaochengqi decoction on the incision healing of rats with obstructive jaundice**
Speaker: Qiangpu Chen (Department of Hepatobiliary Surgery, Binzhou Medical University Hospital)
- P-70** **Clinical assessment of esophagectomy in a low-volume regional hospital utilizing “BIG DATA” of the NCD registration**
Speaker: Toru Fukunaga (Department of Surgery, Numazu City Hospital)
- P-71** **Our strategy for achieving the best location of the ports in laparoscopic gastrectomy**
Speaker: Koji Shindo (Department of Surgery and Oncology, Kyushu University)
- P-72** **Laparoscopy-assisted transduodenal resection of superficial non-ampullary duodenal epithelial tumors**
Speaker: Nobutsugu Abe (Department of Surgery, Kyorin University)
- P-73** **Perforated duodenal diverticulum in the third portion: two case reports**
Speaker: Masahiko Kawaguchi (Department of Surgery, Yokohama Sakae Kyosai Hospital)
- P-74** **A newly modified esophagogastrostomy after proximal gastrectomy in our institution**
Speaker: Atsushi Yasuda (Department of Surgery, Kindai University Faculty of Medicine)
- P-75** **Outcome of laparoscopic sleeve gastrectomy for morbid obesity and type 2 diabetes**
Speaker: Tsuyoshi Yamaguchi (Department of Surgery, Shiga University of Medical Science)
- P-76** **Postoperative in-hospital course for the elderly patients of gastric cancer**
Speaker: Kiyohiko Shuto (Department of Surgery, Teikyo University Chiba Medical Center)

- P-77** **Clinical features of synchronous lung cancer in patients with resected gastric cancers**
Speaker: Yuhei Waki (Division of Gastric Surgery, Shizuoka Cancer Center)
- P-78** **Hepatectomy indications for patients with indocyanine green retention rate over 40%: an appraisal using ^{99m}Tc-GSA SPECT/CT fusion imaging**
Speaker: Tatsuaki Sumiyoshi (Department of Gastroenterological Surgery, Kochi Health Sciences Center)
- P-79** **Laparoscopic liver resection for hepatocellular carcinoma with liver cirrhosis**
Speaker: Kazuhiko Hashimoto (Department of Surgery, NTT West Osaka Hospital)
- P-80** **Small anatomical resection of liver**
Speaker: Hisashi Nakayama (Department of Digestive Surgery, Nihon University School of Medicine)
- P-81** **Outcome of high intensity focused ultrasound ablation vs RFA for centrally located HCC in patients with cirrhosis, a case matched comparative study**
Speaker: Tan To Cheung (The University of Hong Kong)
- P-82** **Needle tract implantation of colorectal liver metastasis after a percutaneous needle biopsy: a resected case report**
Speaker: Nobuyuki Watanabe (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center)
- P-83** **A case report of liver tumor in a hepatitis C patient after achieving sustained virological respons**
Speaker: Susumu Mochizuki (Department of Digestive Surgery, Nihon University School of Medicine)
- P-84** **Oxaliplatin-related hepatic veno-occlusive disease mimicking metastatic liver tumor**
Speaker: Akira Kanamoto (Department of Digestive Surgery, Nihon University School of Medicine)
- P-85** **A case of primary Perivascular epithelioid cell tumor (PEComa) that was difficulty in distinguishing from hepatic tumor**
Speaker: Hidetaka Arima (Department of Digestive Surgery, Nihon University School of Medicine)
- P-86** **Clinical images of cholangiolocellular carcinoma**
Speaker: Masaru Aoki (Department Digestive Surgery, Nihon University School of Medecine)
- P-87** **The platelet-activating receptor C-type lectin receptor-2 plays an essential role in liver regeneration after partial hepatectomy in mice**
Speaker: Hiroshi Kono (First Department of Surgery, University of Yamanashi)
- P-88** **Surgical treatment of hepatolithiasis: our experience in Bangabandhu Sheikh Mujib Medical University**
Speaker: Bidhan Chandra Das (Department of Hepatobiliary and Pancreatic Surgery, Bangabandhu Sheikh Mujib Medical University)

November 23 (Thursday)

Best Poster Presentations 2

17:20-17:50

(Hall B5 Lobby)

Chair: Cheng-Chung Wu (Department of Surgery, Taichung Veterans General Hospital)

Posters

Poster Exhibition (Hall B5 Lobby)

- P-89** **Presacral abscess as a rare complication of sacral nerve stimulator implantation**
Speaker: Chee Siong Wong (Blackpool Teaching Hospitals NHS Foundation Trust)
- P-90** **Can we reduce early recurrences after cytoreductive surgery (CRS) and hyperthermic intraperitoneal chemotherapy (HIPEC)?**
Speaker: Grace Hwei Ching Tan (Division of Surgical Oncology, National Cancer Centre Singapore)
- P-91** **A case of peritoneal dissemination Malignant peritoneal mesothelioma mimicks ischemic colitis**
Speaker: Yusuke Mitsuka (Department of Digestive Surgery, Nihon University School of Medicine)
- P-92** **Caecal Bascule - management revisited: a case report**
Speaker: Loh How Peow (Department of Surgery, Hospital Teluk Intan)
- P-93** **The next step of cell-free concentrated ascites reinfusion therapy (CART) for cancer patients with combination of chemotherapy**
Speaker: Osamu Takata (Department of Surgery, Arai Hospital)
- P-94** **Feasibility of urinary tract preserving surgery for locally advanced colorectal cancer using neoadjuvant chemotherapy**
Speaker: Tadao Tokoro (Department of Surgery, Kindai University Faculty of Medicine)
- P-95** **Genome-wide RNA-seq of colon cancer-educated platelets and their potential in colon cancer diagnosis**
Speaker: Ryutaro Udo (The Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- P-96** **A case of an intussusception caused by ileal lipomatosis**
Speaker: Kenta Baba (Department of Digestive Surgery, JA Hiroshima General Hospital)
- P-97** **Evaluation of short-term outcomes of laparoscopic-assisted surgery for colorectal cancer in elderly patients aged over 75 years old: a multi-institutional study (YSURG1401)**
Speaker: Keisuke Kazama (Yokohama City University, Department of Surgery)
- P-98** **Examination about prognosis in recurrent T1b colorectal cancers**
Speaker: Masaya Enomoto (Department of Surgery, Niizashiki Central General Hospital)

- P-99** **A single center retrospective clinical study on young-onset colorectal cancer**
Speaker: Kiu Fung Kelvin Wong (Department of Surgery, North District Hospital)
- P-100** **A rare case of solitary fibrous tumor of the mesorectum**
Speaker: Kengo Hayashi (Department of Surgery, Kouseiren Takaoka Hospital)
- P-101** **Two cases of colonic perforation after barium gastrography**
Speaker: Yoritaka Matsuno (Department of Digestive Surgery, Nihon University School of Medicine)
- P-102** **The efficacy of a surgical stapling device with polyglycolic acid used in colorectal surgery**
Speaker: Ryo Ohta (Department of Surgery, Institute of gastroenterology, Kawasaki Saiwai Hospital)
- P-103** **A case of adult intussusception of colon caused by metastasis from lung cancer**
Speaker: Kiyoko Takada (Department of Surgery, Itabashi Medical Association Hospital)
- P-104** **Examination of prognostic in patients undergoing surgery for colorectal perforation**
Speaker: Kenta Kasahara (Tokyo Medical University Hachioji Medical Center Digestive and Transplant Surgery)
- P-105** **The study on low molecular G protein and RhoA protein**
Speaker: Takahiro Wada (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)
- P-106** **A case of chest wall metastasis of rectal cancer after resection of liver metastasis**
Speaker: Yosuke Hashimoto (Department of Digestive Surgery, Shizuoka City Shizuoka Hospital)
- P-107** **Adenocarcinoma of sigmoid colon neobladder 42 years after cystectomy**
Speaker: Hisao Kano (Department of Digestive Surgery, Nihon University School of Medicine)
- P-108** **A case of De Garengeot Hernia**
Speaker: Shintaro Yamazaki (Department of Digestive Surgery, Nihon University School of Medicine)
- P-109** **Transabdominal preperitoneal repair is useful for giant inguinal hernia**
Speaker: Tatsuya Tazaki (Department of Surgery, JA Hiroshima General Hospital)
- P-110** **Laparoscopic transabdominal preperitoneal approach for Amyand's Hernia without appendectomy**
Speaker: Michiko Kitagawa (Department of Surgery Endoscope, Minimally Invasive Surgery Center)
- P-111** **Hospital adoption of laparoscopic transabdominal preperitoneal repair for inguinal hernia: surgical outcomes by a single surgeon**
Speaker: Masahiro Yan (Mitsuwadai General Hospital)

- P-112** **Consideration on abdominal/laparoscopic surgery for esophageal hiatus hernia**
Speaker: Sakurako Hattori (Department of Surgery, Toride-Kitasouma Medical Association Hospital)
- P-113** **The new surgery method “Hybrid Surgery” for abdominal incisional hernia**
Speaker: Taiki Miyakuni (Department of Digestive Surgery, Nihon University Hospital)
- P-114** **Inguinal hernia operation, anterior approach under Tumescant Local Anesthesia and deep sedation**
Speaker: Kei Ito (Department of Surgery, Sanraku Hospital)
- P-115** **Bilateral bumps on the back – a case report on bilateral lumbar hernias**
Speaker: Iris Hiu-Tung Chung (Department of Surgery, University of Hong Kong)
- P-116** **Comparing perioperative outcomes and costs of conventional procedure versus mesh fixation by suturing technique versus non-fixation techniques in transabdominal preperitoneal repair for primary external inguinal hernia**
Speaker: Yoshifumi Tagami (Department of Surgery, Anan Kyohei Hospital)
- P-117** **Obturator hernia: review of thirty-one patients in Queen Mary Hospital**
Speaker: Jason Yu Yin Li (Department of Surgery, Queen Mary Hospital)
- P-118** **Are nonagenarians at higher risk for emergency obturator hernia repair?**
Speaker: Ho Hung Billy Cheung (Department of Surgery, Queen Mary Hospital, The University of Hong Kong)
- P-119** **Solid pseudopapillary neoplasm of the pancreas, case report and review of the literature**
Speaker: Miana Gabriela Pop (Department of General Surgery, Regional Institute of Gastroenterology and Hepatology Prof. Dr. Octavian Fodor, Cluj - Napoca, Iuliu Hatieganu University of Medicine and Pharmacy)
- P-120** **A case of spontaneous gallbladder perforation**
Speaker: Takaharu Kawai (Department of Digestive Surgery, Nihon University School of Medicine)
- P-121** **Effectiveness of hepatic arterial infusion chemotherapy with gemcitabine for postoperative liver metastases from pancreatic cancer**
Speaker: Hidehiro Tajima (Department of Gastroenterological Surgery, Kanazawa University)
- P-122** **Risk factors of postoperative pancreatic fistula after distal pancreatectomy using a triple-row stapler**
Speaker: Hiromichi Kawaida (First Department of Surgery, Faculty of Medicine, Yamanashi University)
- P-123** **Investigation on helical part of cystic duct in congenital biliary dilatation cases operated in our department**
Speaker: Naohiro Hosomura (First Department of Surgery, Faculty of Medicine, University of Yamanashi)

- P-124** **Radiotherapy followed by gemcitabine and S-1 therapy in locally advanced biliary tract cancer**
Speaker: Masashi Ishikawa (Department of Surgery, Shikoku Central Hospital)
- P-125** **Clinicopathological analysis of mucinous cystic neoplasm of the pancreas: a single institutional study**
Speaker: Masatake Taniguchi (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East)
- P-126** **A case of pancreatic head ductal adenocarcinoma with 10-year survival after bilateral lung resections for multiple metastases**
Speaker: Masato Yamazaki (Department of Surgery, Teikyo University Chiba Medical Center)
- P-127** **Resection including reconstruction procedures of GIST arising from 4th portion duodenum**
Speaker: Yota Kawasaki (Department of Digestive Surgery, Breast and Thyroid Surgery, Kagoshima University)
- P-128** **A case of pancreatoduodenectomy for the patients developing duodenal hemorrhage due to arteriovenous malformation caused by the serous cystic neoplasm**
Speaker: Shunsuke Tamura (Department of Shizuoka Cancer Center)
- P-129** **Comparison of TNM-staging systems between the Japan Pancreas Society 6th and 7th edition**
Speaker: Ryo Morisue (Department of Hepatobiliary and Pancreatic Surgery, National Cancer Center Hospital East)
- P-130** **The clinical features of gangrenous cholecystitis**
Speaker: Mamoru Ishikawa (Department of Surgery, Ichinomiyanishi Hospital)
- P-131** **Interval appendectomy for complicated appendicitis with abscess in children. Is Carbapenem necessary for the initial treatment?**
Speaker: Kensuke Ohashi (Department of Pediatric Surgery, Nihon University School of Medicine)
- P-132** **Thoracoscopic surgery for acute empyema**
Speaker: Eisuke Matsuda (Department of Surgery, Saiseikai Imabari Hospital)
- P-133** **Can the VATS lung resection really give benefits for the super-senior patients of 80 years old or more?**
Speaker: Ryoichi Kondo (Department of Thoracic Surgery, National Hospital Organization Matsumoto Medical Center)
- P-134** **Can preoperative inhalation of LABA/LAMA reduce postoperative complications in lung cancer patients with chronic obstructive pulmonary disease?**
Speaker: Kyoshiro Takegahara (Department of Thoracic Surgery, Nippon Medical School)

- P-135 A case of resected cervicomedial lipoma**
Speaker: Hiromitsu Domen (Department of Surgery, Nippon Telegraph and Telephone East Corporation, Sapporo Medical Center)
- P-136 Resection of thymic large cell neuroendocrine carcinoma**
Speaker: Hiromitsu Domen (Department of Surgery, Nippon Telegraph and Telephone East Corporation, Sapporo Medical Center)
- P-137 Resected typical carcinoid of the lung with high fluorodeoxyglucose uptake in positron emission tomographic images**
Speaker: Hiromitsu Domen (Department of Surgery, Nippon Telegraph and Telephone East Corporation, Sapporo Medical Center)
- P-138 A case of pulmonary MALT lymphoma with both frosted glass shadow and solid tumor shadow on CT**
Speaker: Toshio Nishikawa (Inoue Hospital)
- P-139 Pulmonary metastasis from colon cancer presenting as a ground-glass opacity nodule: a case report**
Speaker: Hideki Ota (Department of Surgery, Yamagata Prefecture Shinjo Hospital)
- P-140 A case of thrombotic microangiopathy after living donor related liver transplantation**
Speaker: Shintaro Yamazaki (Department of Digestive Surgery, Nihon University School of Medicine)
- P-141 A useful technique for hepatic vein reconstruction in left-lobe liver transplantation**
Speaker: Shintaro Yamazaki (Department of Digestive Surgery, Nihon University School of Medicine)
- P-142 A case of living donor liver transplantation using extended right lateral sector graft**
Speaker: Naoki Yoshida (Department of Hepato-Biliary-Pancreatic-Transplantation Surgery, Japanese Red Cross Medical Center)
- P-143 A case of Autologous portal vein graft in left liver transplantation**
Speaker: Shintaro Yamazaki (Department of Digestive Surgery, Nihon University School of Medicine)
- P-144 Maternal grafts provide similar outcomes compared with grafts from first-degree relatives**
Speaker: Miu-Yee Chan (The Department of Surgery, The University of Hong Kong)
- P-145 Examination of the therapeutic effect of NAC for patients with large type 3 and type 4 gastric cancer**
Speaker: So Katayanagi (Department of Digestive and Transplantation Surgery, Tokyo Medical University Hachioji Medical Center)
- P-146 Gastric perforation secondary to metastasis from breast cancer**
Speaker: Chee Siong Wong (Blackpool Teaching Hospitals NHS Foundation Trust)

- P-147 Treatment outcome of laparoscopy-assisted distal gastrectomy for pStage II gastric cancer**
Speaker: Yuna Sudo (Department of Surgery, Gastroenterological Center, Yokohama City University,)
- P-148 Feasibility of laparoscopy-assisted gastrectomy for gastric cancer in elderly patients: a case-control study**
Speaker: Yoshie Tanaka (Department of Surgery Gastroenterological Center, Yokohama City University Medical Center)
- P-149 A case report of mesenteric malignant lymphoma**
Speaker: Shunsuke Yamagishi (Department of Surgery, National Hospital Organization Disaster Medical Center)
- P-150 Standardization of dissection around spleen and reconstruction for laparoscopic total gastrectomy**
Speaker: Hironori Ohdaira (Department of Surgery, IUHW Hospital)
- P-151 The effect of pancrelipase against diarrhea in patients after gastrectomy**
Speaker: Yutaka Kimura (Department of Surgery, Kindai University Faculty of Medicine)
- P-152 Prognostic significance of serum tumor markers in patients with advanced gastric cancer**
Speaker: Tsutomu Namikawa (Department of Surgery, Kochi Medical School)
- P-153 Comparison of short-term results between hand-assisted laparoscopic total gastrectomy and laparoscopically assisted total gastrectomy for gastric cancer**
Speaker: Ken Hagiwara (Department of Digestive Surgery, Nihon University School of Medicine)
- P-154 Rare case of Gastric Endometriosis**
Speaker: Altanchimeg Nyamgarav (Second General Hospital)
- P-155 Functional evaluation using the acetaminophen method for various methods of gastrectomy and reconstruction for gastric cancer**
Speaker: Eiji Nomura (Department of Gastroenterological Surgery, Tokai University Hachioji Hospital)
- P-156 Laparoscopy-assisted total gastrectomy using two different types of endoscopic purse-string suture instrument**
Speaker: Dong Yi Kim (Department of Surgery, Chonnam National University Medical School)
- P-157 The risk factor of prolonged postoperative ileus after gastrectomy for gastric cancer**
Speaker: Sanae Kaji (Division of Gastric Surgery, Shizuoka Cancer Center)
- P-158 Surgical outcome after resection for advanced gastric cancer in patients aged 80 years or older**
Speaker: Yota Shimoda (Department of Gastrointestinal and Pediatric Surgery, Tokyo Medical University)

- P-159 A surgical case of malignant granular cell tumor of stomach**
Speaker: Masahito Ikarashi (Department of Digestive Surgery, Nihon University School of Medicine)
- P-160 Shape memory absorbable stent for the digestive tract stenosis prevention**
Speaker: Kazuhiko Kasuya (Department of Internal Medicine, Tokyo Medical University)
- P-161 A resection case of metastatic neuroendocrine carcinoma in duodenum**
Speaker: Atsuko Hosaka (Department of Digestive Surgery, Nihon University School of Medicine)
- P-162 A case of lymphoid hyperplasia in the liver**
Speaker: Hidetaka Arima (Department of Digestive Surgery, Nihon University School of Medicine)
- P-163 Transarterial chemotherapy for bile duct tumor thrombus of hepatocellular carcinoma: report of a case**
Speaker: Shintaro Yamazaki (Department of Digestive Surgery, Nihon University School of Medicine)
- P-164 The radiological differentiation of hypervascular intrahepatic cholangiocarcinoma from hepatocellular carcinoma with a focus on the CT value on multi-phase enhanced CT**
Speaker: Shusei Sano (Division of Hepato-Biliary-Pancreatic Surgery, Shizuoka Cancer Center)
- P-165 Clinical characteristics of non-B, non-C hepatocellular carcinoma**
Speaker: Fumiaki Kishihara (Department of Surgery, Steel Memorial Yawata Hospital)
- P-166 Liver resection for hepatocellular carcinoma in elderly patients**
Speaker: Osamu Aramaki (Department of Digestive Surgery, Nihon University School of Medicine)
- P-167 Examination of the hepatic portal venous gas in our hospital**
Speaker: Hiroshi Suda (Department of Surgery, Kobari General hospital)
- P-168 Resection of solitary metachronous lymph node metastasis from hepatocellular carcinoma following transarterial chemotherapy with cisplatin: a case report**
Speaker: Tomoharu Kurokawa (Department of Digestive Surgery, Nihon University School of Medicine)
- P-169 A case of accidentally discovered splenic epidermoid cyst with serum CA19-9 elevation**
Speaker: Keiko Takagi (Department of Digestive Surgery, Nihon University School of Medicine)
- P-170 The spontaneous regression of lymph node for HCC**
Speaker: Renpei Yagi (Department of Digestive Surgery, Nihon University School of Medicine)
- P-171 Usefulness of magnetic resonance elastography for liver resection in patients with chronic liver diseases**
Speaker: Hayato Abe (Department of Digestive Surgery, Nihon University School of Medicine)

P-172 Laparoscopic management of liver hydatid disease

Speaker: Sanjay Chaube (Department of Surgery St. Judes Hospital)

P-173 A case report of adult hepatoblastoma

Speaker: Naoya Kobayashi (Department of Digestive Surgery, Nihon University School of Medicine)

P-174 Postoperative acute multiorgan failure immediately after hepatectomy in a Nigerian male with sickle cell disease: a case report

Speaker: Toshimitsu Iwasaki (Hepatobiliary and Pancreatic Surgery Division, National Cancer Center Hospital)

P-175 Laparoscopic anatomical liver resection by using glissonian approach

Speaker: Sho Mineta (Department of Surgery, Ageo Central General Hospital)

P-176 Impact of sarcopenia on complications after liver resection for hepatocellular carcinoma on young-old and old-old patients

Speaker: Jun Muto (Department of Surgery, Steel Memorial Yawata Hospital)

P-177 The NX-DCP level can be used to predict the presence of vascular invasion in HCC

Speaker: Tomoharu Kurokawa (Department of Digestive Surgery, Nihon University School of Medicine)
