

Sixteenth Annual Meeting of the RNA Society

RNA 2011

Kyoto International Conference Center, Kyoto, Japan

June 14 - 18, 2011

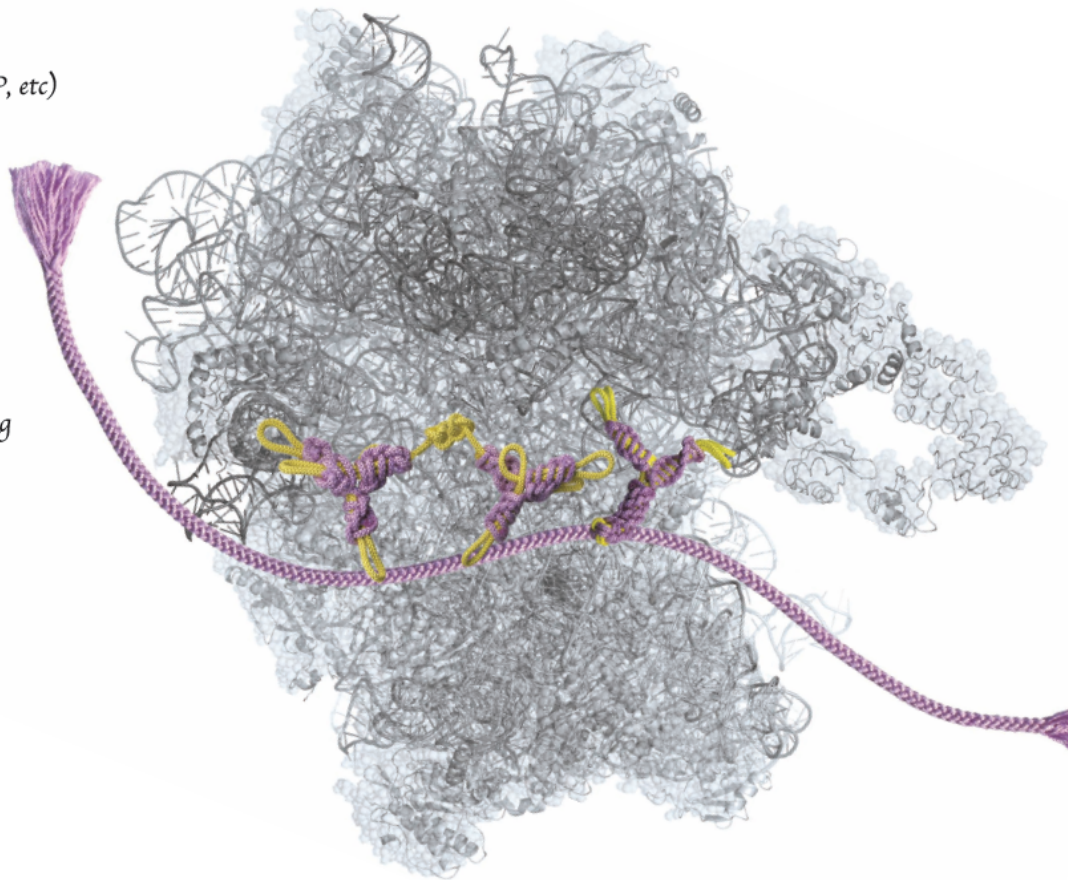

Abstract deadline: Early March 2011

For further information: <http://www2.convention.co.jp/RNA2011>

Topics include:

Alternative splicing
Bioinformatics
Catalytic RNAs
Delivery of RNA therapeutics
Genome wide analyses (HITS-CLIP, etc)
Noncoding RNAs
mRNA quality control
mRNA transport and localization
mRNA turnover
Ribosomes and translation
Riboswitches
RNA chemical biology
RNA editing
RNA helicases
RNA interference and gene silencing
RNA-protein complexes
RNA structure and folding
RNA synthetic biology
RNP granules
snRNAs and snoRNAs
Splicing mechanisms
Therapeutic RNAs
Translational control
3' end processing
Viral RNAs

Organizers:

Melissa Jurica, University of California Santa Cruz
Lynne Maquat, University of Rochester
Yoshi Nakamura, University of Tokyo
Haru Siomi, Keio University, Tokyo
Eric Westhof, Institut de Biologie Moléculaire et Cellulaire, Strasbourg
Jamie Williamson, The Scripps Research Institute, La Jolla

Coorganized by The RNA Society of Japan as its 13th Annual Meeting
