Dear Colleagues,

We are delighted and honored to host the 7th International Sentinel Node Society Meeting (ISNS2010), which is scheduled for November 18 to 20, 2010 in Yokohama, Japan. We will work hard to make this event a highly productive and informative experience for all who attend.

We were also very pleased to host the 3rd International Sentinel Node Society Meeting in Yokohama in 2002, which left us with many fond memories of the wonderful time we had interacting with participants from countries around the globe.

Over the last decade, sentinel node biopsy and lymphatic mapping techniques have made a great contribution to the management of malignant melanoma and breast cancer. In past congresses, we gained immense insight from the pioneer’s achievements in this field. Now, sentinel node technology has entered a new phase of application, and the emerging techniques are driving innovation in sentinel node imaging and lymphatic mapping. We believe that the new techniques have strong potential for individualized management of not only melanoma and breast cancer but also other solid tumors. Indeed, sentinel node navigation surgery promises to evolve into one of the most important options for surgical oncology in the near future.

Turning to our venue, Yokohama is an attractive and cosmopolitan port city. For nearly one hundred and fifty years, it has been Japan’s main gateway to the rest of the world. As such, it offers a fascinating blend of traditional Japan and international flavor, giving it a robust, rich atmosphere found in few other places. We believe that all ISNS2010 participants will be enthralled by the city’s many exotic charms, enduring traditions, and inspiring modern architecture.

So please join us again in Yokohama in November. We are confident that each and every participant will have an enjoyable and memorable stay, and return home with a richer, more knowledgeable understanding of not only the growing field of sentinel node navigation surgery but also of Japan and the Japanese.

Participants are most welcomed to submit original abstracts to be considered for presentation at the 7th International Sentinel Node Society Meeting (ISNS2010) on November 18-20, 2010. The abstract must represent original and previously unpublished work. All abstracts should be submitted via the congress website. The Abstract submitted by post, fax or e-mail is not acceptable. If you have difficulties in submitting abstract online, please contact the secretariat for assistance.

Congress Website URL: www2.convention.jp/isns2010/

Instruction for Preparing Abstracts

The abstract must be prepared in ENGLISH.

The title of the abstract:
The title should be no longer than 175 characters including spaces (approx. 25 words), and must be brief and identify the nature of the study.

The body of the abstract:
The abstract body should be no longer than 2,100 characters including spaces (approx. 300 words), and must contain:

- A sentence stating the purpose of the study
- A summary of results
- A brief description of methods if pertinent
- A statement of conclusions reached

The abstract may NOT contain any figures or tables.

Topics and Presentation Styles

Please select a topic and corresponding topic which are most applicable to your study. You may also specify the preference for an oral or poster presentation. Please note that the program committee will make the final allocation if the abstract is accepted.

- Breakthroughs in sentinel node technology
- Novel cancer therapy targeted on sentinel nodes
- Future perspectives
Abstract Review and Selection

Abstracts will be reviewed and selected by the program committee. Authors will be notified of selection at the end of August 2010 to the e-mail address registered.

Young Investigators Award

The Organizing Committee of the 7th International Sentinel Node Society Meeting (ISNS2010) encourages young investigators’ participation; Participants whose abstracts are of outstanding quality will receive Young Investigators Award (a grant).

An applicant for Young Investigators Award must:

- Be under the age of 40 at the time of application;
- Be the first author of the abstract and the presenter of either an oral or poster presentation;
- Be pre-registered for the Congress and complete the payment of registration fee before one’s presentation;
- Obtain a visa for entering Japan prior to the Congress, if necessary.

If you are eligible for Young Investigators Award and wish to apply, please select “I apply for YIA” when you submit the abstract through the Congress Website. This option will appear on the last page during your online abstract submission process.

**Banks**

Banks are open from Monday to Friday, 9:00-15:00 (Closed on Saturdays, Sundays and national holidays). Automatic teller machines (ATMs) are available for withdrawing by credit card every day from 9:00 to 20:00 at major banks.

**Climate and Clothing**

Generally, the weather at November is pleasant and dry. The average temperature in Yokohama during the conference period is likely to be 14°C (57°F) (Low 10°C (50°F)/ High 17°C (63°F)). From November onward, when the temperature starts falling in the morning and evening, a jacket would be advisable. However, a heavy coat will not be necessary and there are still quite a few days when short sleeves would be comfortable during the days.

**Credit Cards**

Diners Club, American Express, Visa and MasterCard are widely accepted at hotels, department stores, shops and restaurants.

**Currency**

Currency in Japan is the Yen (¥/JPY).
Notes are available in denominations of 10,000, 5,000, 2,000 and 1,000 yen.
Coins are minted in denominations of 500, 100, 50, 10, 5 and 1 yen.
Exchange at the airport is recommended for your convenience. Most foreign currencies can be exchanged at banks and hotels where you stay. However, we highly recommend purchasing cash in Yen before leaving your home country.
A passport may be required for currency exchange services.

**Electricity**

Voltage in Japan is 100V and the frequency is either 50Hz or 60Hz depending on the area (Tokyo is 50Hz). The socket is type A, which has two flat plug holes. If you plan to bring any electric appliances that are not convertible, transformers and/or plug adaptors are necessary.

**Insurance**

The Organizing Committee can accept no responsibility for accidents or damage to the private property of participants. Please make your own arrangements for health insurance and any other necessary insurance.

**Mobile Telephones**

Mobile telephone rental is recommended, as most foreign cellular phones are not compatible with Japan’s network. Mobile phone rental shops are conveniently located at Narita and other international airports. Please check with your mobile network provider prior to your departure.

**Passport and Visa Requirements**

A valid passport is required to enter Japan. In addition, some foreign nations require a visa. Please contact the Japanese Consulate or diplomatic mission in your country at least three months before your departure for Japan. For details, please check the website of the Ministry of Foreign Affairs of Japan (www.mofa.go.jp/j_info/visit/visa/index.html) or contact the Japanese Embassy in your country, as required steps to obtain visas vary from country to country.
To request a set of documents to obtain visas to the Secretariat, prior registration to the Meeting and payment of your registration fee are required.

**Time**

Japan Standard Time is nine hours ahead of Greenwich Mean Time.
For the ISNS2010 Meeting participants, special rates and conditions will be offered at several hotels situated in Yokohama within walking distance of the Meeting venue. Reservations will be processed in order of receipt of application form. If the hotel of your first choice is fully booked, you will be offered a room at a hotel of the same grade.

Please make your reservation via the website:
