

Program

May 24, 2008

12:25	Opening Remarks	Dr. Kazuo Chihara Kakogawa Hospital, Japan
12:30	Keynote Lecture	Dr. Kazuo Chihara Kakogawa Hospital, Japan
	Molecular mechanisms of metabolic syndrome	Dr. Masato Kasuga Research Institute, International Medical Center of Japan, Japan
13:00 Session I	Metabolic Syndrome and Growth Hormone Related Topics	Dr. Hisao Seo Chubu University, Japan
		Dr. Tsutomu Ogata National Research Institute for Child Health and Development, Japan
	Neuronal mechanisms of feeding regulation	Dr. Masamitsu Nakazato University of Miyazaki, Japan
	Adult growth hormone deficiency and nonalcoholic steatohepatitis	Dr. Yutaka Takahashi Kobe University, Japan
	Abnormality of lipid metabolism in childhood cancer survivors (CSS) with suprasellar brain tumors	Dr. Masanori Adachi Kanagawa Children's Medical Center, Japan
	Clinical Applications of Ghrelin	Dr. Takashi Akamizu Kyoto University, Japan
14:40	Coffee Break	
15:00 Session II	Metabolic syndrome, Obesity and Life Span	Dr. Toshio Matsumoto University of Tokushima, Japan
		Dr. Issei Tanaka Hirakata Kohsai Hospital, Japan
	Mechanisms of Insulin Resistance	Dr. Emmanuel Van Obberghen University Hospitals Nice, France
	Adipose tissue inflammation in the metabolic syndrome	Dr. Yoshihiro Ogawa Tokyo Medical and Dental University, Japan
	Preventing beta cell failure in the metabolic syndrome	Dr. Domenico Accili Columbia University, USA
	Metabolic syndrome in children and adolescents	Dr. Takehiko Ohzeki Hamamatsu University School of Medicine, Japan
17:20	Break	
17:30 Session II	Metabolic syndrome, Obesity and Life Span	Dr. Kazuo Chihara Kakogawa Hospital, Japan
	The Role of Insulin-like Signaling for the Central and Peripheral Regulation of Nutrient Homeostasis and Life Span	Dr. Morris F. White Harvard Medical School, USA
18:15	Closing Remarks	Dr. Issei Tanaka Hirakata Kohsai Hospital, Japan
18:30	Reception
